Adviser Fund Guide

Investment Options and Fund Choice

(Life Funds, Pension Funds, Prudential
International Funds and Collective Funds)

Introduction to this guide

We provide a number of investment options that can help you meet both you and your clients' needs through a range of investment approaches and products.

In this guide we'll provide you with more details on these options.

How much fund choice do you need?

- There are numerous 'investment solutions' available today, each aiming to meet the needs of you and your clients.
- These could include:
- **Multi-asset funds** – these offer the ability to outsource the day-to-day asset allocation and fund selection decisions by using an actively managed multi-asset fund or portfolio.
- **Selected provider fund choices** – with continual review and research a close understanding of a provider's in-house investment approach can be developed, making it easier to identify options that meet investors' needs.
- **Open architecture** – this option gives very wide choice; however you need to commit your time and skills to review all these funds and make the proper recommendations.

The investment options available for Prudential Retirement Account aren't included in this brochure.

For information on those options then please visit pruadviser.co.uk/retirement-account or for details of the PruFund Funds available in the Retirement Account, please see our Prudential Retirement Account PruFund Fund Guide, INVB205504.

The value of any investment, and any income taken from it, can go down as well as up so your customer might not get back the amount they put in.

The information in this guide is correct as at 19 January 2026, unless another date is shown.

For further information on fund availability

This guide aims to indicate fund availability through our current product range. Please either speak to your Prudential Account Manager or refer to the relevant fund guides for full details of the funds available on each of the products we offer.

M&G Life Investment Office

We believe in the importance of asset allocation and appreciate that there has been a strong demand for multi-asset solutions.

For both Prudential and Prudential International funds we have a strong team of in-house experts, the M&G Life Investment Office (LIO), who are entrusted with the day-to-day asset allocation decisions for over £150 billion (as at June 2025) of investors' money.

LIO includes experienced investment professionals with specialist expertise in capital market research, manager research, investment strategy design, liability management and portfolio management.

M&G Investment Management Ltd, part of M&G plc, are the investment managers for the WS Prudential Risk Managed Active fund range and the WS Prudential Risk Managed Passive fund range. They make the relevant adjustments to portfolios based on recommendations from LIO.

Additional fund choice

Trustee Investment Plan and Prudential Investment Plan

Over the years we've built a range of funds to meet different needs. These include funds from both Prudential and also external fund managers. Many of these funds target specific needs – such as natural income paying distribution funds for onshore bonds.

The following funds are available through our Trustee Investment Plan and our Prudential Investment Plan.

The additional fund choice for International Investments is shown on page 10.
