This letter provides you with full details of the changes, which will become effective on Wednesday 5 March 2025 (the "Effective Date").

There will be no change to the Funds' respective Investment Objectives, Investment Policies and Investment Strategies, and where applicable, their classifications under the Sustainable Finance Disclosure Regulation ("SFDR") will remain unchanged. There will be no material change to the Funds' overall liquidity and risk profiles. The changes will not result in any changes to the Funds' respective portfolios.

1. Update of the ESG exclusions in compliance with the ESMA guidelines on fund names using ESG- or sustainability-related terms (the "Guidelines")

In order to comply with the Guidelines, which will take effect on Wednesday 21 May 2025, we will introduce a new 'ESMA Naming Guidelines Exclusions' section in the Funds' Sustainability-related disclosures, which are available on the M&G website and will be updated on the Effective Date.

The new section will include full details of the new Guidelines-related exclusions, specifically the additional exclusion criteria (and applicable thresholds) related to the Paris-Aligned Benchmark¹ ("PAB"), which the Guidelines require the Fund to adhere to.

continued

¹ Paris-aligned benchmarks are indices whose total emission levels are aligned with the Paris Agreement, which seeks to limit the rise in global temperatures to well below 2 degrees Celsius above pre-industrial levels, and to pursue efforts to keep the rise to 1.5 degrees Celsius.

You should note that some of the Funds may apply stricter exclusion thresholds than those related to the PAB. Full details of the ESG exclusions applicable to each Fund can be found in their respective Sustainability-related disclosures.

Please note that the Funds already comply with the other requirements set out by the Guidelines, namely:

- holding at least 80% of investments used to meet sustainable investment objectives in accordance with the binding elements of the Funds' ESG investment strategy, and
- where relevant, committing to invest meaningfully in sustainable investments referred to in Article 2(17) of the SFDR.

2. Update related to the French ISR label (the "Label")

The 'ESG Criteria' section within the Funds' Sustainability-related disclosures will be updated on the Effective Date to specify that the Funds adhere to the Label and provide details of the Label-related requirements they must adhere to.

The Funds' Sustainability-related disclosures are available on the M&G website.

3. Rationalisation of the Funds' ESG-related documentation

ESG-related information for each Fund is currently included in the ESG Criteria document, as well as in the Sustainability-related disclosures, which are available on the M&G website.

From the Effective Date, information currently included in the Funds' ESG criteria documents, including details of the ESG exclusions that apply to each Fund, will be migrated to the Funds' Sustainability-related disclosures. This will make it easier for investors to access ESG-related information for each Fund.

Administration costs associated with the changes

All administration costs associated with implementing the changes will be borne by M&G.
