Section 2 – Withdrawal options

Please select one of the following four options.

Note: once we have carried out your request we are unable to reverse it.

Option 1: Partial cash-in equally across all policies within the bond/plan

Take a partial cash-in sum of £ withdrawn equally across all policies within the bond or plan.

Please note, where units are held in more than one fund, units will be cancelled in proportion to the value of each fund unless you state otherwise using the boxes below.

If units are not to be cancelled proportionately from all funds held enter the name of the fund(s) and the percentage **or value** of the withdrawal you would like to take from the fund(s). Where 'value' (£) is selected, the amount taken from the fund may differ slightly from the amount requested due to rounding.

(This is required in case we need to contact your adviser regarding this request, which may be because the withdrawal method selected results in a higher chargeable event gain than an alternative method.

Please see note 1 "Taxation" in Section 5 – "Important information". If the level of gain has already been considered and the intention is to create a 'larger' gain for tax planning purposes, please let us know to avoid any delays.)

We will confirm receipt of the form and let you know how long the claim will take.

You must only complete ONE option

Section 5 – Important information

1. Taxation

Any cash-in/withdrawal from this Bond/Plan (in full or in part), may produce a chargeable event gain, which may result in a liability to income tax above the basic rate and/or affect entitlement to personal allowance and tax credit.

Where a partial cash-in, together with any earlier cash-ins (including regular withdrawals and any ongoing adviser charges) exceeds the annual tax deferred allowance (5% each year {cumulative} of the total amount invested), there will be a chargeable event gain, in which case **it may be advantageous to fully cash-in some of the individual policies (segments), if by doing so, the chargeable event gain will be reduced.**

Once processed, except for extreme circumstances where HM Revenue and Customs (HMRC) may consider a chargeable event gain to be 'wholly disproportionate' (which would require you to apply direct to HMRC in writing for approval), HMRC regulations do not allow for a withdrawal to be reversed, or recalculated on a more favourable basis for income tax purposes. **It is therefore important for the most suitable method of withdrawal to be selected at the outset.**

This information is based on our understanding of current taxation, legislation and HMRC practice, all of which are liable to change without notice. The impact of taxation (and any tax relief(s)) depends on individual circumstances.

Further information is available in our 'Guide to tax on your investment' leaflet, which you can request by calling **0345 640 1000** or visiting **pru.co.uk** (pru.co.uk/pdf/INVS0002.pdf)

2. Charges

Cash-in charges may be imposed on partial or full cash-ins, in accordance with the Policy provisions and as explained in the product literature when the policy was taken out.

For partial cash-ins the monetary amount of the payment will be as requested but additional units will be cancelled to meet any charges due.

Please note: Cash in charges do not apply to regular withdrawals. If you require more information regarding your withdrawal options and how cash-in charges are applied, please refer to your key features document.

3. Plans/Bonds invested in a With-Profits Fund

A market value reduction (MVR) may be applied to reduce the value of a full withdrawal. Where a partial withdrawal is required, the MVR if applicable, would increase the number of units cancelled to provide the requested withdrawal payment.

Whether a MVR will apply on the day the withdrawal is processed cannot be predicted and we are unable to hold a request for a withdrawal which is conditional on whether a MVR applies or not.

For an explanation of the MVR, please refer to the key features document you received with your policy documents.

4. Reduction in Benefits

Where applicable to your plan/bond, a partial cash-in may affect the following benefits:

- Annual growth reward
- Guaranteed minimum death benefit
- Guaranteed minimum fund value
- If you withdraw money out of a PruFund Protected Fund, the value of your Guarantee will be reduced

Please refer to your key features document.

5. Possible delays in cancelling units PruFund Funds

For any partial or full encashment involving a PruFund Fund, in exceptional circumstances we may delay cancelling units for a period of 28 days. Please refer to your key features for details. Where a 28 day notice period applies, we'll contact you. If your encashment instructions include other funds – when we contact you, we'll ask how you want the other funds (not subject to 28 days notice) to be processed.

Once a partial or full encashment instruction involving a PruFund Fund is received by us, and the 28 day notice applies, this instruction can not be cancelled or replaced with revised instructions.

Other funds

In exceptional circumstances we may delay cancelling units in any fund by up to one month (6 months in the case of the Property Fund or any funds that invest in buildings or land) from the date we receive your instruction.

6. The effect of withdrawals on your bond

Any part withdrawals taken will reduce the value of your bond/plan. If the withdrawals, including any ongoing and ad hoc adviser charges, are more than any overall growth achieved, the value of your plan will reduce below the level of capital invested.

You should carefully plan how much you can afford to withdraw from your plan and when. If you withdraw too much too soon you could run out of money.

Full terms and conditions of Prudential's bonds and plans are available from: Prudential, Prubond Claims and Servicing, Lancing BN15 8GB.
