## Notes

### General

Details of Prudential funds can be found in your fund guide available from your adviser or at [pru.co.uk/funds/guides](https://pru.co.uk/funds/guides)

Once an investment switch has been processed it cannot be cancelled.

Switches out of With-Profits may incur a Market Value Reduction. This may have the effect of reducing your fund value. Please see your Key Features Document or fund guide for more information.

Re-allocation of existing investments (or redirection of future contributions) to the With-Profits Fund is not allowed within three years of your selected retirement age and, if chosen, will instead be invested in the Cash Fund. Please remember that the value of the Cash Fund can fluctuate depending on the value of the underlying assets. It also has a guarantee that the price at which you can sell units in the fund – the bid value – will not fall.

The Management Charge for Prudential funds may not, in the future, be taken in the way described in your plan booklet. However, the Management Charge taken will not be greater than the corresponding figure shown for the relevant fund in our table of Management Charges. Details are available on request.

### Section 32 Plans

The Guaranteed Minimum Pension (GMP) value must be invested in the With-Profits Fund.

### Premier Stakeholder/Group Stakeholder

The range of funds available will be restricted to those that can be provided within the Maximum Fund Management Charge of 1%.

Please remember that the value of your investment can go down as well as up and so you may not get back the amount you put in.
