The Prudential ISA is provided by Link Financial Investments Limited, who are the ISA Plan Manager. Waystone Management (UK) Limited are responsible for the WS Prudential OEIC Funds.

Telephone number for enquiries regarding both the Prudential ISA and WS Prudential OEIC Funds is: 03443358936 . We might record your call for training and quality purposes. To find out more about how we use your personal data please visit pru.co.uk/mydata.

## Important information

It's important for you to decide whether this product is right for you. You should read your Key Information Document and relevant Investment Option Document(s). These include important information you will need to help you make up your mind. Please read these and keep them safe for future reference.

The purpose of this illustration is to show you what you might get back if you were to invest single or regular investments into some example funds. The projected values assume that no withdrawals have been taken.

Please note: As the price of everyday goods and services goes up, your money won't stretch as far as the same amount would now. This is called inflation.

Your Prudential ISA/WS Prudential OEIC Funds have no fixed term.

The figures in the tables in this document are only examples and aren't guaranteed - they aren't minimum or maximum amounts you might expect to get back.

Projections are calculated using a middle growth rate which we believe realistically reflects the investment potential of our products and funds. For this illustration, we are also required by our regulator to provide additional projections using assumed growth rates $3 \%$ either side of this middle rate. In some circumstances, yearly growth rates have been limited as required by our regulator:

- For funds in an ISA to 2\% (lower rate), 5\% (middle rate) and 8\% (higher rate)
- For Funds outside an ISA to 1.5\% (lower rate), 4.5\% (middle rate) and 7.5\% (higher rate).

Please note that charges and costs may change by provider.

What you get back depends on how your investment performs, any withdrawals you make and the charges and costs.

The value of your investment can go down as well as up so you might get back less than you put in.

You can keep your money invested in your account for as long as you want while the Prudential ISA remains open for investment.

You'll be sent statements every three months to help you keep track of your benefits.

Please note that Link Financial Investments Limited are responsible for all regulatory and legal aspects of the ISA and provide all customer services, including sending out contract notes, statements and other post-sales communications.

Tax rules can change and the impact of taxation (and any tax relief) depends on your circumstances.

## Charges and costs

- The charges and costs may change in the future and they may be higher than they are now. Fund charges and costs listed in this guide are indicative, based on the current levels of costs, and are correct as at June 2023.
- For more information on PruFund charges and costs, please see your Key Information Document (KID), Fund Guide - Prudential ISA PruFund Funds and the Master Insurance Agreement - Customer Version.
- For more information on the charges relating to the WS Prudential OEIC Funds please see your Key Investor Information Documents for each fund (KIID) and prospectus.

## What are the charges and costs?

Charges and costs are deducted from the funds to cover incurred expenses and investment charges. Adviser Charges will also be deducted that you've agreed to pay your Adviser.

- For Prudential ISA PruFund Range of Funds examples are shown in Section 1.
- For Prudential ISA WS Prudential OEIC Funds examples, Ongoing Charges are shown in Section 2.
- For WS Prudential OEIC Funds examples outside of an ISA, Ongoing Charges are shown in Section 3.

The examples in this document are based on an Ongoing Adviser Charge of $0.5 \%$ each year of the fund value. However, you can agree a different level of Ongoing Adviser Charge with your Adviser. You can cancel the Ongoing Adviser Charge at any point in the future.

The figures in this document assume no Initial (Set Up) Adviser Charge is facilitated. However, you can choose to pay any Initial (Set Up) Adviser Charge on top of, or included in the amount you want to invest.

Please contact your adviser if you have any questions.

## We offer the following funds

| Fund Name | Product Availability |
| :--- | :---: |
| PruFund Cautious Fund | ISA |
| PruFund Growth Fund | ISA |
| PruFund Risk Managed 1 Fund | ISA |
| PruFund Risk Managed 2 Fund | ISA |
| PruFund Risk Managed 3 Fund | ISA |
| PruFund Risk Managed 4 Fund | ISA |
| PruFund Risk Managed 5 Fund | ISA |
| WS Prudential Risk Managed Passive 1 Fund | ISA and OEIC |
| WS Prudential Risk Managed Passive 2 Fund | ISA and OEIC |
| WS Prudential Risk Managed Passive 3 Fund | ISA and OEIC |
| WS Prudential Risk Managed Passive 4 Fund | ISA and OEIC |
| WS Prudential Risk Managed Passive 5 Fund | ISA and OEIC |
| WS Prudential Risk Managed Active 1 Fund | ISA and OEIC |
| WS Prudential Risk Managed Active 2 Fund | ISA and OEIC |
| WS Prudential Risk Managed Active 3 Fund | ISA and OEIC |
| WS Prudential Risk Managed Active 4 Fund | ISA and OEIC |
| WS Prudential Risk Managed Active 5 Fund | ISA and OEIC |

The examples within this document are based on the PruFund Growth Fund, the WS Prudential Risk Managed Passive 1 Fund and the WS Prudential Risk Managed Active 5 Fund.

## The Range of PruFund Funds

We take an Annual Management Charge (AMC) for looking after your investment. The AMC is taken by the monthly cancellation of units from each investment. There are other costs that aren't covered by the AMC. These can include, for example, maintenance costs for property investments and costs associated with investing in infrastructure, such as utilities, transport and renewable energy. These can change over time. You will be entitled to a reduction in the AMC on your PruFund Funds if the total value of your PruFund Fund holdings held in your Prudential ISA is $£ 100,000$ or more.

For more information on charges and costs, see your Fund Guide.

## WS Prudential OEIC Funds

The Ongoing Charge figure includes the Annual Management Charge (AMC). It is disclosed in the WS Prudential Key Investor Information Document and is based on the total of all charge payments made over a year, and includes charges such as the fund's AMC, custodian charge, and administration fee. These figures are based on the R Accumulation Share class and may change from time to time.

The AMC covers the ongoing costs of a fund. This will include the costs of management and administration of the fund. The AMC is incorporated in the daily unit pricing for the WS Prudential OEIC Funds.

## Section 1

Example Illustration for the PruFund Funds in the Prudential ISA
The PruFund Range of Funds are provided by the Prudential Assurance Company Limited.

Assuming an initial investment of $£ 20,000$, £100 each month regular investment, a $£ 50,000$ transfer value and a $£ 100,000$ transfer value for the PruFund Funds in the Prudential ISA.

The following figures should be taken into account when considering the impact of charges and costs on your investment into the PruFund Funds in the Prudential ISA.

The figures calculated have not taken into account the effects of inflation.

## PruFund Growth Fund

## What I might get back?

The table below provides examples of what you might get back if the initial investment of $£ 20,000$ grows at the rates shown below.

It also shows an example of what you might get back based on a regular investment of $£ 100$ each month, an example of what you might get back based on a transfer value of $£ 50,000$ and an example of what you might get back based on a transfer value of $£ 100,000$.

The table assumes an investment in the PruFund Growth Fund with an AMC of $1.06 \%$ and further costs of $0.31 \%$ which would give a yearly total of $1.37 \%$ and an Ongoing Adviser Charge of $0.5 \%$ each year.

|  | At the end of year | Total paid in to date | Assuming 2\% investment growth | Assuming 5\% investment growth | Assuming 8\% investment growth |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium £20,000 | 1 | £20,000 | £20,000 | £20,600 | £21,100 |
|  | 3 | £20,000 | £20,000 | £21,800 | £23,800 |
|  | 5 | £20,000 | £20,100 | £23,200 | £26,700 |
|  | 10 | £20,000 | £20,200 | £27,000 | £35,800 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £1,190 | £1,210 | £1,230 |
|  | 3 | £3,600 | £3,590 | £3,760 | £3,930 |
|  | 5 | £6,000 | £6,000 | £6,460 | £6,960 |
|  | 10 | £12,000 | £12,000 | £13,900 | £16,200 |
| transfer value of £50,000 | 1 | £50,000 | £50,000 | £51,500 | £52,900 |
|  | 3 | £50,000 | £50,100 | £54,700 | £59,500 |
|  | 5 | £50,000 | £50,200 | £58,100 | £66,900 |
|  | 10 | £50,000 | £50,500 | £67,500 | £89,500 |
| transfer value of £100,000 | 1 | £100,000 | £100,000 | £103,000 | £106,000 |
|  | 3 | £100,000 | £100,000 | £109,000 | £119,000 |
|  | 5 | £100,000 | £100,000 | £116,000 | £134,000 |
|  | 10 | £100,000 | £101,000 | £135,000 | £179,000 |

## How much will the charges and costs affect my investment?

Each section in the table below shows what you could get back if you cash in your plan assuming the investments grow at 5\% each year.

The table assumes an investment in the PruFund Growth Fund with an AMC of $1.06 \%$ and further costs of $0.31 \%$ which would give a yearly total of $1.37 \%$ - and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Total paid in to date | Total actual deductions to date | Effect of deductions to date | What you might get back |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £389 | £389 | £20,600 |
|  | 3 | £20,000 | £1,200 | £1,260 | £21,800 |
|  | 5 | £20,000 | £2,060 | £2,270 | £23,200 |
|  | 10 | £20,000 | £4,470 | £5,550 | £27,000 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £15 | £15 | £1,210 |
|  | 3 | £3,600 | £117 | £121 | £3,760 |
|  | 5 | £6,000 | £320 | £341 | £6,460 |
|  | 10 | £12,000 | £1,310 | £1,510 | £13,900 |
| transfer value of $£ 50000$ | 1 | £50,000 | £973 | £973 | £51,500 |
|  | 3 | £50,000 | £3,000 | £3,150 | £54,700 |
|  | 5 | £50,000 | £5,170 | £5,690 | £58,100 |
|  | 10 | £50,000 | £11,100 | £13,800 | £67,500 |
| transfer value of £100,000 | 1 | £100,000 | £1,890 | £1,890 | £103,000 |
|  | 3 | £100,000 | £5,860 | £6,150 | £109,000 |
|  | 5 | £100,000 | £10,000 | £11,100 | £116,000 |
|  | 10 | £100,000 | £21,800 | £27,100 | £135,000 |

## What are the deductions for?

The deductions include the assumed Ongoing Adviser Charge, the AMC, including any discount where applicable, and further costs, all of which will have an effect of reducing your investment growth. This is called the "Reduction in Yield" and can be a useful means of comparing charges of different investment products.

The last line of each section of the table above shows the effect of the total deductions, over 10 years, could amount to:

| Single <br> premium <br> $£ 20,000$ | Regular <br> Investment <br> $£ 100$ | Transfer <br> value <br> of $£ 50,000$ | Transfer <br> value of <br> $£ 100,000$ |
| :---: | :---: | :---: | :---: |
| $£ 5,550$ | $£ 1,510$ | $£ 13,800$ | $£ 27,100$ |

Putting it another way, this would have the same effect as bringing the assumed investment growth used down from $5 \%$ a year, by the figures shown below to $3.1 \%$ for each of the frequencies shown in the table above. These figures have been calculated based on the assumptions mentioned in the table above.

This is called the "Reduction in Yield" and can be a useful means of comparing charges and costs of different investment products.

| Over 5 years | Over 10 years |
| :---: | :---: |
| $1.9 \%$ | $1.9 \%$ |

## Section 2

## Example Illustration for the WS Prudential OEIC Funds in the Prudential ISA

The OEIC Funds are provided by Waystone Management (UK) Limited.

Assuming an initial investment of $£ 20,000$, £100 each month regular investment and a $£ 50,000$ transfer value - for the WS Prudential OEIC Funds in the Prudential ISA.

The following figures should be taken into account when considering the impact of charges and costs on your investment into the WS Prudential OEIC Funds within the Prudential ISA.

The figures calculated have not taken into account the effects of inflation.

## WS Prudential Risk Managed Passive 1 Fund

## What I might get back?

The table below provides examples of what you might get back if the initial investment of $£ 20,000$ grows at the rates shown below.

It also shows an example of what you might get back based on a regular investment of $£ 100$ each month and an example of what you might get back based on a transfer value of $£ 50,000$.

The table assumes an investment in the WS Prudential Risk Managed Passive 1 Fund with an Ongoing Charge including the Annual Management Charge of $0.54 \%$ and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Investment to date | Assuming 1.75\% investment growth | Assuming 4.75\% investment growth | Assuming 7.75\% investment growth |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £20,100 | £20,700 | £21,300 |
|  | 3 | £20,000 | £20,400 | £22,200 | £24,200 |
|  | 5 | £20,000 | £20,700 | £23,900 | £27,500 |
|  | 10 | £20,000 | £21,400 | £28,600 | £38,000 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £1,200 | £1,220 | £1,240 |
|  | 3 | £3,600 | £3,630 | £3,800 | £3,980 |
|  | 5 | £6,000 | £6,100 | £6,580 | £7,090 |
|  | 10 | £12,000 | £12,400 | £14,400 | £16,800 |
| Transfer value of $£ 50,000$ | 1 | £50,000 | £50,300 | £51,800 | £53,300 |
|  | 3 | £50,000 | £51,000 | £55,600 | £60,600 |
|  | 5 | £50,000 | £51,700 | £59,800 | £68,900 |
|  | 10 | £50,000 | £53,500 | £71,600 | £95,000 |

## How much will the charges and costs affect my investment?

Each section in the table below shows what you could get back if you cash in your plan assuming the investments grow at 4.75\% each year.

The table assumes an investment in the WS Prudential Risk Managed Passive 1 Fund with an Ongoing Charge including the Annual Management Charge of 0.54\% and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Total paid in to date | Total actual deductions to date | Effect of deductions to date | What you might get back |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £217 | £217 | £20,700 |
|  | 3 | £20,000 | £677 | £709 | £22,200 |
|  | 5 | £20,000 | £1,170 | £1,280 | £23,900 |
|  | 10 | £20,000 | £2,570 | £3,150 | £28,600 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £7 | £7 | £1,220 |
|  | 3 | £3,600 | £61 | £63 | £3,800 |
|  | 5 | £6,000 | £172 | £182 | £6,580 |
|  | 10 | £12,000 | £728 | £833 | £14,400 |
| Transfer value of $£ 50,000$ | 1 | £50,000 | £544 | £544 | £51,800 |
|  | 3 | £50,000 | £1,690 | £1,770 | £55,600 |
|  | 5 | £50,000 | £2,930 | £3,210 | £59,800 |
|  | 10 | £50,000 | £6,430 | £7,890 | £71,600 |

## What are the deductions for?

The deductions include the assumed Ongoing Adviser Charge, the AMC and further costs, all of which will have an effect of reducing your investment growth. This is called the "Reduction in Yield" and can be a useful means of comparing charges of different investment products.

The last line of each section of the table above shows the effect of the total deductions, over 10 years, could amount to:

| Single premium <br> $£ 20,000$ | Regular <br> Investment $£ 100$ | Transfer value <br> of $£ 50,000$ |
| :---: | :---: | :---: |
| $£ 3,150$ | $£ 833$ | $£ 7,890$ |

Putting it another way, this would have the same effect as bringing the assumed investment growth used from 4.75\% a year down by the figures shown below to 3.65\% for each of the frequencies shown in the table above. These figures have been calculated based on the assumptions mentioned in the table above.

This is called the "Reduction in Yield" and can be a useful means of comparing charges and costs of different investment products.

| Over 5 years | Over 10 years |
| :---: | :---: |
| $1.1 \%$ | $1.1 \%$ |

## WS Prudential Risk Managed Active 5 Fund

## What I might get back?

The table below provides examples of what you might get back if the initial investment of $£ 20,000$ grows at the rates shown below.

It also shows an example of what you might get back based on a regular investment of $£ 100$ each month and an example of what you might get back based on a transfer value of $£ 50,000$.

The table assumes an investment in the WS Prudential Risk Managed Active 5 Fund with an Ongoing Charge including the Annual Management Charge of 0.91\% and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Investment to date | Assuming 1.75\% investment growth | Assuming 4.75\% investment growth | Assuming 7.75\% investment growth |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £20,000 | £20,600 | £21,200 |
|  | 3 | £20,000 | £20,100 | £22,000 | £23,900 |
|  | 5 | £20,000 | £20,300 | £23,400 | £27,000 |
|  | 10 | £20,000 | £20,600 | £27,500 | £36,600 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £1,200 | £1,220 | £1,240 |
|  | 3 | £3,600 | £3,610 | £3,780 | £3,950 |
|  | 5 | £6,000 | £6,040 | £6,520 | £7,020 |
|  | 10 | £12,000 | £12,100 | £14,100 | £16,500 |
| Transfer value of $£ 50,000$ | 1 | £50,000 | £50,100 | £51,600 | £53,100 |
|  | 3 | £50,000 | £50,400 | £55,000 | £59,900 |
|  | 5 | £50,000 | £50,700 | £58,700 | £67,600 |
|  | 10 | £50,000 | £51,500 | £68,900 | £91,500 |

## How much will the charges and costs affect my investment?

Each section in the table below shows what you could get back if you cash in your plan assuming the investments grow at 4.75\% each year.

The table assumes an investment in the WS Prudential Risk Managed Active 5 Fund with an Ongoing Charge including the Annual Management Charge of $0.91 \%$ and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Total paid in to date | Total actual deductions to date | Effect of deductions to date | What you might get back |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium £20,000 | 1 | £20,000 | £295 | £295 | £20,600 |
|  | 3 | £20,000 | £915 | £958 | £22,000 |
|  | 5 | £20,000 | £1,570 | £1,720 | £23,400 |
|  | 10 | £20,000 | £3,420 | £4, 210 | £27,500 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £9 | £9 | £1,220 |
|  | 3 | £3,600 | £83 | £85 | £3,780 |
|  | 5 | £6,000 | £232 | £245 | £6,520 |
|  | 10 | £12,000 | £975 | £1,110 | £14,100 |
| Transfer value of £50,000 | 1 | £50,000 | £738 | £738 | £51,600 |
|  | 3 | £50,000 | £2,280 | £2,390 | £55,000 |
|  | 5 | £50,000 | £3,940 | £4,320 | £58,700 |
|  | 10 | £50,000 | £8,570 | £10,500 | £68,900 |

## What are the deductions for?

The deductions include the assumed Ongoing Adviser Charge, the AMC and further costs, all of which will have an effect of reducing your investment growth. This is called the "Reduction in Yield" and can be a useful means of comparing charges of different investment products.

The last line of each section of the table above shows the effect of the total deductions, over 10 years, could amount to:

| Single premium <br> $£ 20,000$ | Regular <br> Investment $£ 100$ | Transfer value <br> of $£ 50,000$ |
| :---: | :---: | :---: |
| $£ 4,210$ | $£ 1,100$ | $£ 10,500$ |

Putting it another way, this would have the same effect as bringing the assumed investment growth used from 4.75\% a year down by the figures shown below to 3.25\% for each of the frequencies shown in the table above. These figures have been calculated based on the assumptions mentioned in the table above.

This is called the "Reduction in Yield" and can be a useful means of comparing charges and costs of different investment products.

## Section 3

## Example Illustration for the WS Prudential OEIC Funds <br> (not held within the Prudential ISA)

The OEIC Funds are provided by Waystone Management (UK) Limited

Assuming an initial investment of $£ 20,000$, £100 each month regular investment and a $£ 50,000$ transfer value - for the WS Prudential OEIC
Funds only.

The following figures should be taken into account when considering the impact of charges on your investment into WS Prudential OEIC Funds.

The figures calculated have not taken into account the effects of inflation.

## WS Prudential Risk Managed Passive 1 Fund <br> What I might get back?

The table below provides examples of what you might get back if the initial investment of $£ 20,000$ grows at the rates shown below.

It also shows an example of what you might get back based on a regular investment of $£ 100$ each month and an example of what you might get back based on a transfer value of $£ 50,000$.

The table assumes an investment in the WS Prudential Risk Managed Passive 1 Fund with an Ongoing Charge including the Annual Management Charge of $0.54 \%$ and an Ongoing Adviser Charge of $0.5 \%$ each year.

|  | At the end of year | Investment to date | Assuming 1.00\% investment growth | Assuming 4.00\% investment growth | Assuming 7.00\% investment growth |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £19,900 | £20,500 | £21,100 |
|  | 3 | £20,000 | £19,900 | £21,800 | £23,700 |
|  | 5 | £20,000 | £19,900 | £23,000 | £26,600 |
|  | 10 | £20,000 | £19,800 | £26,600 | £35,400 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £1,190 | £1,210 | £1,230 |

|  | 3 | £50,000 | £49,900 | £54,500 | £59,300 |
|  | 5 | £50,000 | £49,800 | £57,700 | £66,500 |
|  | 10 | £50,000 | £49,700 | £66,600 | £88,500 |

## How much will the charges and costs affect my investment?

Each section in the table below shows what you could get back if you cash in your plan assuming the investments grow at 4.00\% each year.

The table assumes an investment in the WS Prudential Risk Managed Passive 1 Fund with an Annual Management Charge of 0.54\% and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Total paid in to date | Total actual deductions to date | Effect of deductions to date | What you might get back |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single premium $£ 20,000$ | 1 | £20,000 | £216 | £216 | £20,500 |
|  | 3 | £20,000 | £668 | £694 | £21,800 |
|  | 5 | £20,000 | £1,140 | £1,230 | £23,000 |
|  | 10 | £20,000 | £2,470 | £2,930 | £26,600 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £7 | £7 | £1,210 |
|  | 3 | £3,600 | £61 | £62 | £3,760 |
|  | 5 | £6,000 | £169 | £178 | £6,460 |
|  | 10 | £12,000 | £708 | £793 | £13,900 |
| Transfer value of $£ 50,000$ | 1 | £50,000 | £540 | £540 | £51,400 |
|  | 3 | £50,000 | £1,670 | £1,730 | £54,500 |
|  | 5 | £50,000 | £2,860 | £3,090 | £57,700 |
|  | 10 | £50,000 | £6,170 | £7,340 | £66,600 |

## What are the deductions for?

The deductions include the assumed Ongoing Adviser Charge, the AMC and further costs, all of which will have an effect of reducing your investment growth. This is called the "Reduction in Yield" and can be a useful means of comparing charges of different investment products.

The last line of each section of the table above shows the effect of the total deductions, over 10 years, could amount to:

| Single premium <br> $£ 20,000$ | Regular <br> Investment $£ 100$ | Transfer value <br> of $£ 50,000$ |
| :---: | :---: | :---: |
| $£ 2,930$ | $£ 793$ | $£ 7,340$ |

Putting it another way, this would have the same effect as bringing the assumed investment growth used from 4.00\% a year down by the figures shown below to 2.90\% for each of the frequencies shown in the table above. These figures have been calculated based on the assumptions mentioned in the table above.

This is called the "Reduction in Yield" and can be a useful means of comparing charges and costs of different investment products.

## WS Prudential Risk Managed Active 5 Fund

## What I might get back?

The table below provides examples of what you might get back if the initial investment of $£ 20,000$ grows at the rates shown below.

It also shows an example of what you might get back based on a regular investment of $£ 100$ each month and an example of what you might get back based on a transfer value of $£ 50,000$.

The table assumes an investment in the WS Prudential Risk Managed Active 5 Fund with an Ongoing Charge including the Annual Management Charge of 0.91\% and an Ongoing Adviser Charge of 0.5\% each year.

|  | At the end of year | Investment to date | Assuming 1.25\% investment growth | Assuming 4.25\% investment growth | Assuming 7.25\% investment growth |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Single Premium $£ 20,000$ | 1 | £20,000 | £19,900 | £20,500 | £21,100 |
|  | 3 | £20,000 | £19,800 | £21,700 | £23,600 |
|  | 5 | £20,000 | £19,800 | £22,900 | £26,400 |
|  | 10 | £20,000 | £19,600 | £26,300 | £34,900 |
| Regular $£ 100$ monthly investment | 1 | £1,200 | £1,190 | £1,210 | £1,230 |
|  | 3 | £3,600 | £3,590 | £3,750 | £3,920 |
|  | 5 | £6,000 | £5,970 | £6,430 | £6,930 |
|  | 10 | £12,000 | £11,800 | £13,800 | £16,100 |
| Transfer Value of £50,0000 | 1 | £50,000 | £49,900 | £51,300 | £52,800 |
|  | 3 | £50,000 | £49,700 | £54,200 | £59,100 |
|  | 5 | £50,000 | £49,500 | £57,200 | £66,000 |
|  | 10 | £50,000 | £49,100 | £65,700 | £87,300 |

## How much will the charges and costs affect my investment?

## Glossary

This is a summary explanation of the investment terminology used within this document and other terminology you may find useful.

## ISA

ISA stands for Individual Savings Account. In an ISA, there is no liability to pay any Personal Income Tax or Capital Gains Tax on any profit you may make.

There are 4 types of ISA:

- Stocks and Shares ISA
- Cash ISA
- Lifetime ISA
- Innovative Finance ISA

There is a subscription limit on the amount an investor can pay into their ISAs each tax year. Investors can pay into one of each type of ISA in each tax year but the total paid to all of the investor's ISAs can't exceed the subscription limit. Payments to a Lifetime ISA are also limited to a maximum amount.

## OEIC Funds

Open Ended Investment Company (OEIC) Funds are a type of open-ended collective investment. The terms OEIC, collectives, and investment fund are used interchangeably with different investment managers favouring one over the other.

- The WS Prudential OEIC Funds within an ISA allows the account holder to invest money without having to pay Income and Capital Gains Tax on any income or growth.
- The OEIC Funds outside of an ISA could be subject to personal tax.

The WS Prudential OEIC Funds are available as an investment within the Prudential ISA or as stand alone investments outside of the Prudential ISA.

## pru.co.uk

'Prudential' is a trading name of The Prudential Assurance Company Limited which is registered in England and Wales. Registered Office at 10 Fenchurch Avenue, London EC3M 5AG.
