# PruFund Growth Pension Fund

The timeline below shows some key events that have disrupted markets over the period shown.

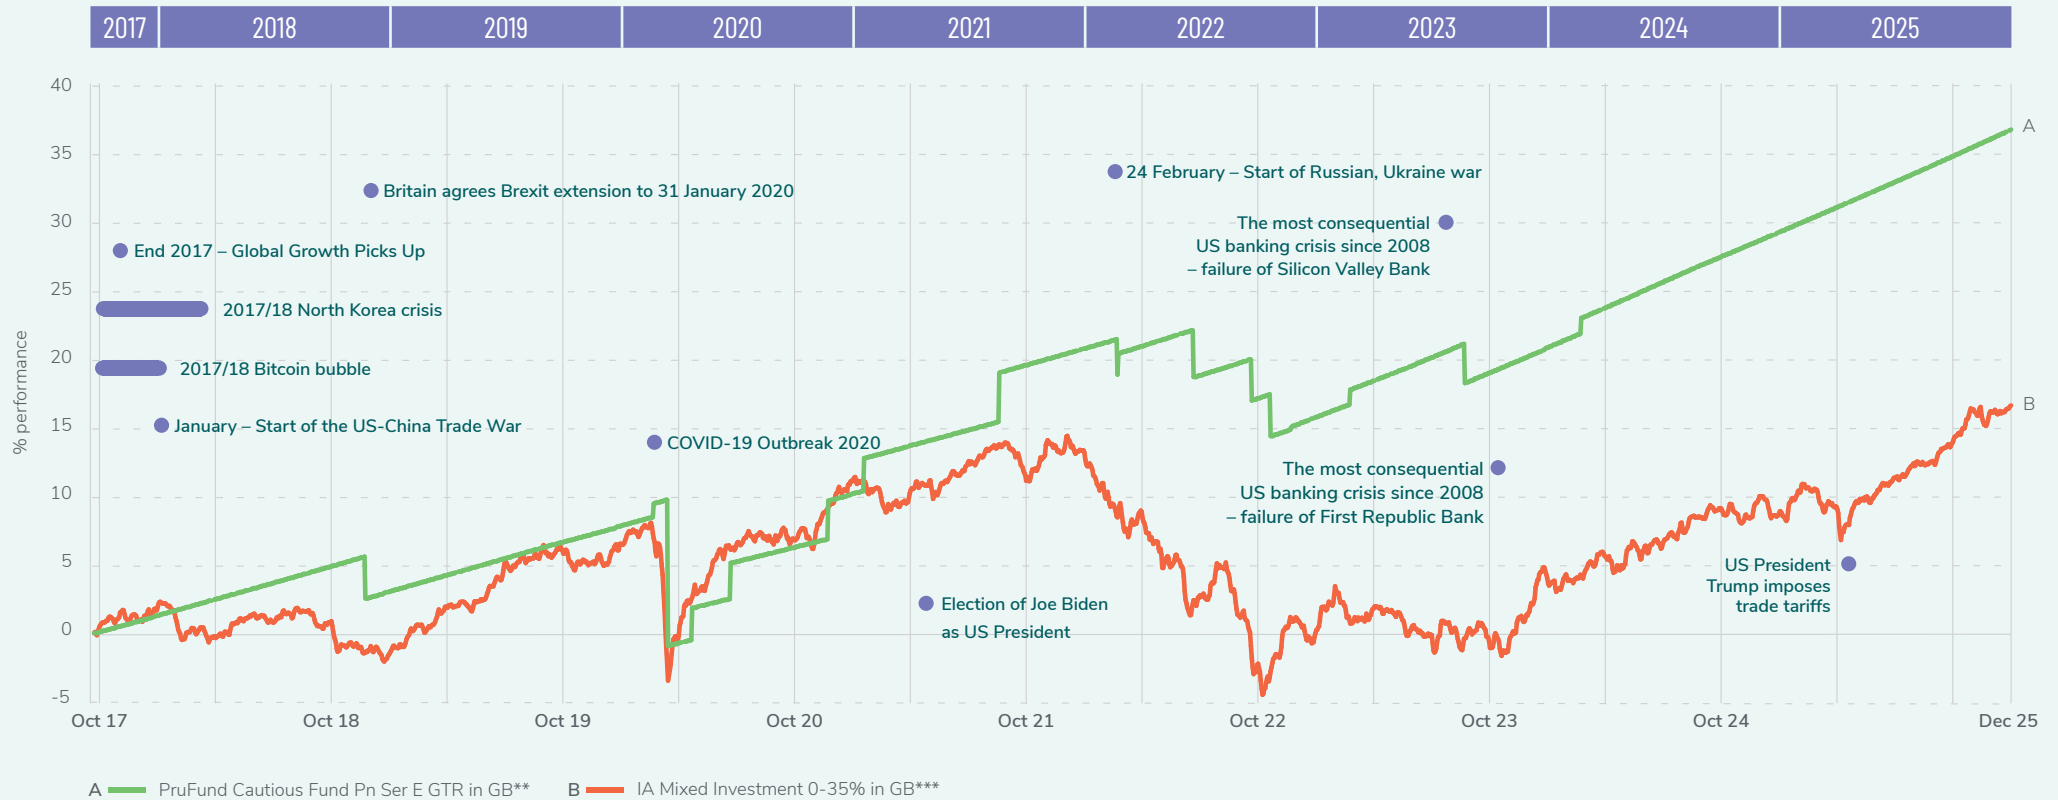

Please remember the value of an investment can go down as well as up and your clients may get back less than they've paid in. Past performance is not a reliable indicator of future performance.

The graph shows performance from 25 September 2017 to 31 December 2025. Source: Financial Express Analytics as at 27 January 2025. \*\*The PruFund Growth figures are intended only to demonstrate performance history of the pension fund over the period shown. They include a representative fund charge of 0.65% pa and any further costs. They take no account of product or advice charges. The application of charges may impact the overall performance. Please note that our charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with gross income reinvested. \*\*\*IA Mixed Investment 20-60% performance is shown bid to bid, gross income reinvested but gross of fund tax. Some, if not all, of the funds comprising the ABI sector averages are net of fund charges.
