

Where does PruFund invest across the Globe?

This interactive guide shows you just some of the ways the money you've invested in PruFund (PruFund Growth, PruFund Cautious, Risk Managed PruFunds) is invested in private markets across the world.

The PruFund range of funds leverage off the size and significant scale of M&G plc, an organisation that has £346.1bn Assets under Management and Administration (AuMA)* and global presence with 39 locations worldwide across 27 markets. The global footprint of the company allows it to identify and capitalise on investment opportunities across different regions, providing customers with globally diversified portfolios.

As well as a rich history and presence, M&G plc serve a large client base worldwide. The flagship fund of M&G plc, PruFund, is fully invested in the £128bn* Prudential With-Profits Fund. Ours is the largest in the UK and has a very strong regulatory solvency ratio. PruFund has around £64bn* invested in it by around 500,000 customers, recommended by 5,200 advice firms**.

PruFund predominantly invests within public markets and the private market investments shown within this guide are a just a proportion of the total investments.

The value of your investment can go down as well as up so you might get less back than you put in.

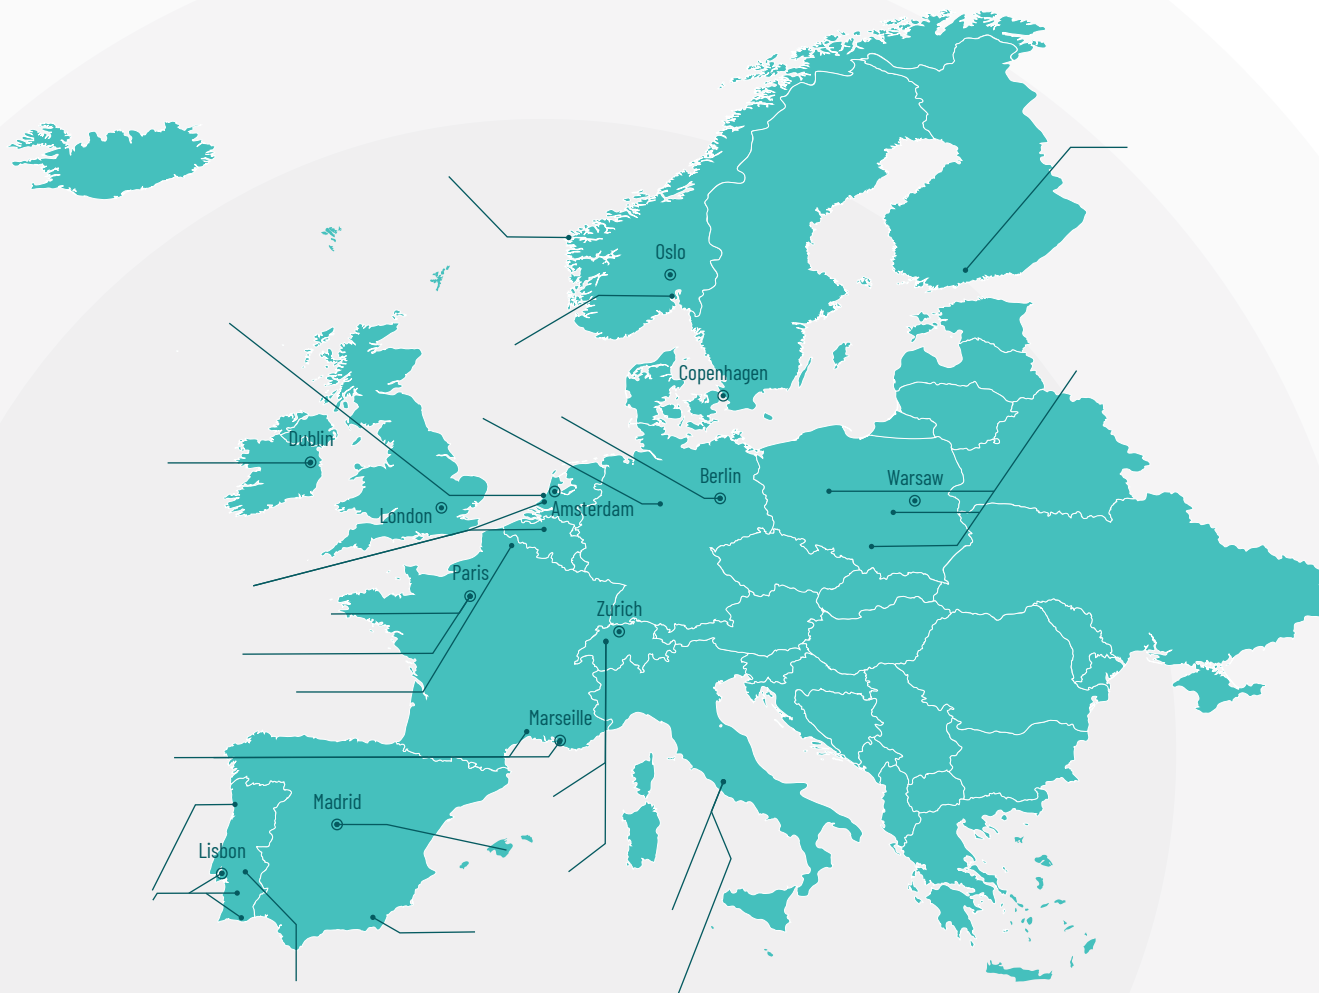

PruFund Growth/Cautious/Risk Managed – Public/Private investment split*

	PruFund Growth	PruFund Cautious	Risk Managed PruFund 1	Risk Managed PruFund 2	Risk Managed PruFund 3	Risk Managed PruFund 4	Risk Managed PruFund 5
Total Private %	28.60%	26.60%	21.60%	23.30%	24.60%	25.50%	26.00%
Total Public %	71.40%	73.40%	78.40%	76.70%	75.40%	74.50%	74.00%

Europe

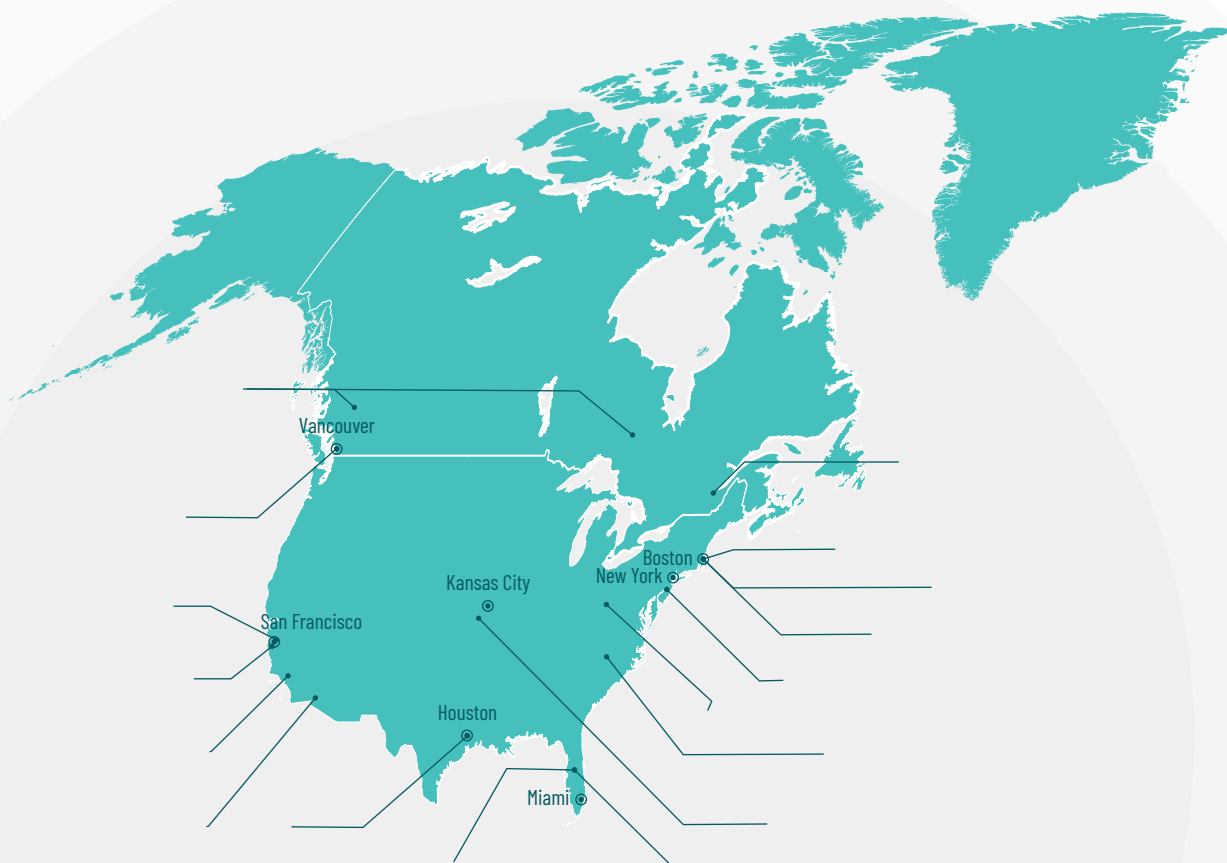

Find out about our investments throughout Europe by rolling over the icons on the map.

Read about our UK investments here.

-  **Infrastructure** – Investments such as telecommunications, sources of renewable energy and social infrastructure (hospitals, schools, prisons) as well as food infrastructure (for companies addressing food challenges).
-  **Real Estate** – Investments into commercial and residential buildings such as offices, warehouses and shopping centres.
-  **Private High Yield** – A range of strategies and scalable solutions with the ability to target different risk-reward and liquidity profiles. Private high yield investments offer higher returns by lending to companies with lower credit ratings.
-  **Private Credit** – Investments where we're lending money to privately-owned companies.

North America

Find out about our investments throughout North America by rolling over the icons on the map.

- Private Equity** – Funding to privately-owned businesses which are often smaller, early-stage companies. The idea is that investors are compensated for any additional risk associated.

Middle East and Africa

Find out about our investments throughout the Middle East and Africa by rolling over the icons on the map.

Currently the private market exposure to the Middle East and Africa is small and limited to only a handful of companies.

This is more reflective of the infancy of private markets and not a negative view on the continent as the With-Profits Fund and in turn PruFunds has been slowly building exposure to listed African equities and bonds over a number of years, such that Prudential Assurance Company is now one of the largest UK investors in African public markets.

In private markets, an example is Sun King, a really interesting business that has a demonstrable track record in delivering small scale solar power to off grid homes allowing them to generate enough electricity to power lights and domestic appliances.

Infrastructure – Investments such as telecommunications, sources of renewable energy and social infrastructure (hospitals, schools, prisons) as well as food infrastructure (for companies addressing food challenges).

Private High Yield – A range of strategies and scalable solutions with the ability to target different risk-reward and liquidity profiles. Private high yield investments offer higher returns by lending to companies with lower credit ratings.
