On 1 April 2021, the Scottish Amicable Insurance Fund (SAIF) merged with the Prudential With-Profits Sub Fund. Therefore, the information at 31 December 2021 within this section, and within section (c) below now also apply to the former SAIF with-profits business. Prior to 31 December 2021 the SAIF with-profits business was excluded.

The information within this section, and within section b) below, shows investments attributable to with-profits business in the UK, but excludes:

- Investments attributable to the with-profits Prudence Bond Optimum Bonus (life with-profits series 3) business, PruFund Cautious and PruFund Protected Cautious Funds and PruFund Investment Plan business written in the Growth & Income Fund. These products have a more cautious investment policy than the main with-profits fund.
- Investments attributable to the Risk Managed PruFund Funds, which have their own specific investment policies.
- The non-sterling denominated business in the Defined Charge Participating Sub-Fund (DCPSF) written by Prudential International Assurance (PIA).
- We regularly review asset allocations and they may vary from time to time, but they'll always be consistent with the Fund's objectives.

b) Investment returns

	31.12.2021 (%)	31.12.2020 (%)	31.12.2019 (%)	31.12.2018 (%)	31.12.2017 (%)

Net return	10.1	1.5	9.6	-2.2	9.1

These figures are based on annual performance.

These returns are gross of tax (where applicable), charges and the effects of smoothing (for more information on smoothing, please refer to Your With-Profits Plan – A guide to how we manage the Fund).

Past performance isn't a reliable indicator of future performance.
