

Autumn Budget

November 2025

This content is based on our understanding of current taxation, legislation and HM Revenue & Customs practice all of which are liable to change without notice. The impact of any taxation (and any tax reliefs) depends on individual circumstances.

Where content includes case studies or examples these are for illustration purposes and are not recommending a specific course of action.

Past performance is not a reliable indicator of future performance. The value of an investment can go down as well as up and your client may get back less than they've paid in.

No reproduction, copy, transmission or amendment of this presentation may be made without our written permission.
