

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

M&G Equities Investment Fund for Charities (Charifund)

Sterling Class A – Income units ISIN no. GB0005494629

Managed by M&G Securities Limited

Objective and investment policy

Objective:

The fund aims to provide:

- an annual yield above that available from the FTSE All-Share Index;
- an income stream that increases every year; and
- a level of capital growth, net of the Ongoing Charge Figure, that is higher than inflation over any ten-year period, as measured by the UK Retail Prices Index (RPI). There is no guarantee that the fund will achieve its objective over this, or any other, period and investors may not get back the original amount they invested.

Core investment: At least 70% of the fund is invested in the shares of companies, across any sector and of any size, that are based or do most of their business in the UK.

Other investments: The fund may invest in the shares of non-UK companies, other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly. Companies involved in the production of tobacco are excluded.

Derivatives usage: To reduce risk and costs.

Strategy in brief: The fund typically invests in a diversified portfolio of high-yielding UK stocks. The investment approach aims to identify stocks which are undervalued. The focus is on companies with the potential to grow their dividends over the long term.

Benchmarks:

The target benchmarks and comparator benchmark do not constrain the fund's portfolio construction.

- Target:

Yield: FTSE All-Share Index

Capital growth: UK Retail Prices Index (RPI)

The benchmarks are targets which the fund seeks to outperform. The target yield and capital growth level have been chosen as they are achievable targets given the fund's investment policy.

- Comparator:

Total return: FTSE All-Share Index

The benchmark is a comparator against which the fund's performance can be measured. The index has been chosen as the fund's benchmark as it best reflects the scope of the fund's investment policy.

The fund is actively managed. The fund manager has freedom in choosing which assets to buy, hold and sell in the fund within the constraints set by the objective and investment policy. The fund's holdings may deviate significantly from the benchmark's constituents.

For unhedged and hedged share classes, the benchmark is shown in the share class currency.

Other information

You can buy and sell units in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund may be paid out to you quarterly.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 10 years.

Risk and reward profile

■ The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its Net Asset Value has shown high rises and falls in value historically.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.co.uk/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

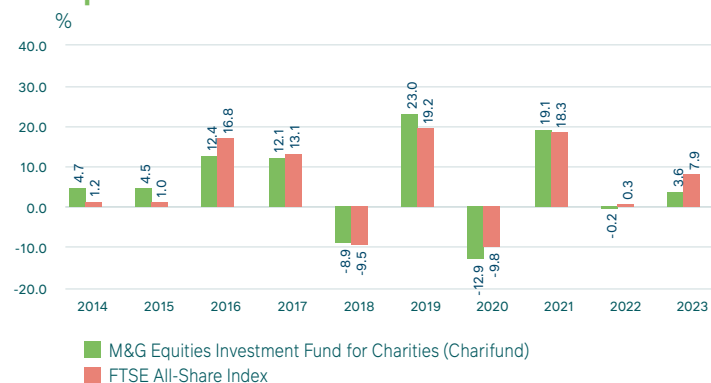

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.55%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 31 October 2023. This figure may change from year to year. It excludes portfolio transaction costs. This figure includes extraordinary expenses and underlying charges for closed-ended-funds, such as investment trusts and Real Estate investment trusts.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.co.uk/literature

Past performance

- Past performance is not a guide to future performance.
- Performance calculation includes UK taxes. It does not take into account the entry and exit charges, but does take into account the ongoing charge, as shown in the charges section.
- The fund launched on 01 March 1960 and the GBP share class launched on 01 March 1960.
- Performance is calculated using GBP Income shares.
- Benchmark performance has been calculated in GBP.
