Important note

If you are invested in the M&G Property Portfolio or the M&G Feeder of Property Portfolio, the annual charge will only contain costs of running the fund. Expenses related to managing the properties within the fund will be disclosed separately (in the PER). This does not change the overall amount you pay to invest in the fund, but it will help you to compare costs more easily with other property funds.

The comparison of the charges has added back the latest PER to compare on a like for like basis and show the savings from the changes to the fund's charges.

Glossary

Fund name Name of sub-fund to which specific assets and liabilities of the Company may be allocated and which is invested in accordance with the investment objective applicable to the sub-fund.

Share class Particular class of a single sub-fund.

ISIN number Worldwide code used to uniquely identify a specific security to facilitate unambiguous clearing and settlement procedures.

Annual charge With the exception of our property funds, we are combining all the charges that make up the current Ongoing Charge Figure (OCF) into a single annual charge. Only exceptional items such as unforeseen legal and tax expenses, also known as extraordinary expenses, will be excluded from the annual charge.

Estimated discounted annual charge An estimate of the discounted charge, to reflect potential savings from economies of scale in large funds. For every £1 billion of a fund's net asset value, a discount of 0.02% will be applied to that fund's annual charge (up to a maximum of 0.12%).

Discount applied Level of discount applied, calculated as follows. For every £1 billion of a fund's net asset value, a discount of 0.02% will be applied to that fund's annual charge (up to a maximum of 0.12%). Fund size is assessed on a quarter end basis (March, June, September, December) to determine the discount to be applied.
